

REPLACEMENT PAGER IDENTIFICATION

Install Help 1-844-4K9-SAFE (459-7233)

This document should help to identify if you have the old style or new style pager system. If an old style pager has been lost or damaged, both a transmitter and receiver must be purchased. If you have new style pager, you can purchase replacement and extra pagers separately.

This is the old style pager system. Key ID features:

- 1) "Enforcer" is embossed into plastic housing.
- 2) Three connectors on side of transmitter
- 3) Button on face of pager
- 4) Transmitter dimensions: 3-15/16" x 3" x 1-1/16"
- 5) Receiver dimensions: 3-5/16" x 2-1/8" x 11/16"

This is the new pager system. Key ID features:

- 1) No wording on transmitter face.
- 2) Single Red LED and Button in slot on face of transmitter
- 3) One connector on side of transmitter
- 4) "Enforcer" is label on receiver.
- 5) Two LEDs on top of receiver (Zone & Page)
- 6) Transmitter dimensions: 4-1/8" x 3-1/8" x 1-5/16"
- 7) Receiver dimensions: 3" x 2-1/8" x 5/8"
